UNPOWERED NARROW BEAM CRANE HOPPERS

Unpowered Narrow Beam Crane Hoppers are road transportable for ease, fitted with third services to run attachments such as clamshells, post drivers and piling hammers. It is the ideal vessel for carrying out a full range of works from dredging to towpath resurfacing.

The 4 hydraulic stabiliser legs complete with large foot plates sustain reduced ground pressure and the wide positioning of the crane is great for self loading and self discharge. The boat has two sealed internal tank allows for flexible usage - allowing it to carry liquid materials including dredging and concrete as well as stone, piles etc.

The vessel is fitted with a 10 t/m crane. See below for more details on crane reach and capacity.

KEY INFO

- LENGTH - 50FT (15.2M)
- CARRYING CAPACITY 14 TONNE
- TOP SEAT MANUAL CONTROLS
- CENTRE MOUNTED CRANE - TO GIVE 360 DEGREE WORKING AREA
- FITS THROUGH LOCKS 70FT LOCKS AS ONE UNIT WHEN WORKING WITH THE ROTHEN GROUP TUG
- IDEAL FOR ALL TYPES OF CANAL AND RIVER MAINTENANCE
- WIDTH - 7FT (2.1M)
- ROAD TRANSPORTABLE
