WIDE BEAM CRANE PONTON

A range of specialist, purpose built crane pontoons capable of a maximum lift of between 5 - 6 tonne, maximum outward reach of between 8 -12 m and an upward reach of 10 - 14m.

Ideally suited to a range of lifting operations from piling to lock gate and bridge removal/installation.

There is a large loading/materials storage area behind the crane.

KEY INFO

- LENGTH – 34FT (10.4M)
- WEIGHT – 16 TONNE
- WIDTH – 13FT 6" (4.1M)
WITHOUT SIDE STABILITY TANKS (EXTRA STABILITY TANKS CAN BE ADDED IF NEEDED)
- DRAFT – 18" (450MM) EMPTY, 24" (600MM) LOADED WITH 6 TONNE

It is fitted with a small hydraulic power pack which operates the four stability jack legs which makes it an extremely stable working platform. Easy to transport via lorry as it is modular. Crane can be lifted on and off very quickly to enable up to an 8 tonne excavator to be tracked on.
