Wide Beam Digger Pontoon

New wide beam digger pontoon capable of carrying a machine up to 8 tonne.

With side stability tanks in place it will take an 8tonne machine making it 17ft 6" wide.

Without side stability tanks in place it will take a 6.5 tonne machine making it 13ft 6" wide and able to pass through wide locks.

It is fitted with a small hydraulic power pack which operates the four stability jack legs which makes it an extremely stable working platform.

It can turn through 90 to allow the machine to be tracked on & off.

It's modular design allows it to be easily transported via hiab lorry.

- ✓ LENGTH – 26FT
- ✓ WEIGHT – 9 TONNE WHICH BREAKS DOWN TO 3 TONNE MODULES FOR EASE OF TRANSPORTING
- ✓ WIDTH – 17FT 6" WITH SIDE STABILITY TANKS, 13FT 6" WITHOUT SIDE STABILITY TANKS
- ✓ DRAFT – 700 MM WITH 8 TONNE MACHINE, 600 MM WITH 6.5 TONNE MACHINE
